

Company Overview

Xpress Ortho Care is the only Orthopedic Urgent Care Clinic in Northwest Indiana.

42% of Emergency Room visits are orthopedic related and the average wait time for orthopedic related injuries is upwards of 3 hours.

There's no need for a long emergency room wait. Patients can find quality orthopedic care in a more convenient and personalized setting at Xpress Ortho Care.

We provide a less expensive alternative to the emergency room and our co-pay cost is equal to a medical office visit.

Our teams of highly qualified orthopedic medical providers specialize in treating muscle pains, sprains, strains, lacerations, broken bones as well as arthritis and other musculoskeletal conditions.

We have an onsite advanced digital X-Ray system to reduce the time it takes to review and diagnose conditions. In addition to the X-Ray system, we have a fully equipped Cast/Treatment Room to ensure the highest quality treatment for our patients. We utilize an advanced electronic medical record (EMR) system, so we can efficiently share health information with a patient's primary care provider, referrals to specialist, and local area hospitals which ensures continuity of care.

It's our goal to get patients back to their active lifestyle as quickly as possible. In fact, our entire process was developed with quality and efficiency in mind. We want the visit to our clinic to be as easy and as comforting as possible.

We offer flexible hours and walk-ins are welcome, no appointment necessary. We also accept most major insurances, as well as cash, checks and all major credit cards. As the area's only immediate access to urgent orthopedic care, we are conveniently located to serve all the communities in the area.

STOP WAITING. START HEALING.
